DETAILED ACTION

Claims 1-11 were canceled.

5 **Claims 12-30 are presented for examination.**

Claims 12-20 are allowed.

Claim Rejections - 35 USC § 112

10 The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

15 **Claim 23** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23 recites the limitation "said first memory" in the 7th line of claim 21.

20 There is insufficient antecedent basis for this limitation in the claim. It is unclear unto which "first memory" the applicant intends; whether the "first memory" is the first data memory or the first volatile working memory.

Claim 23 recites the limitation "said boot" in 8th line of claim 23. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 101

5 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

10 **Claims 21-22** are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 21 is not limited to tangible embodiments. The applicant is claiming a data structure wherein the data structure is not limited to tangible embodiments. As such, the claim is not limited to statutory subject matter and is therefore non-statutory.

15 **Claims 23-30** are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. As per claim 21, the applicant claims four separate memories. However, there is no utility, no action being executed, with the claimed memories as in claim 12. As such, the claim is inoperative and therefore lacks
20 utility.
